Angad Sandhu

Software engineer with graduate training in computer science and research in natural language processing.

Portfolio LinkedIn GitHub

Experience

Amazon · Software Development Engineer

Education

Johns Hopkins University, Whiting School of Engineering · MSE in Computer Science, 2023-2025

Research and talks

Co-authored Temporal Analysis on Topics Using Word2Vec (arXiv:2209.11717).

Co-presented the temporal topic analysis demo at PyData NYC 2024.

Selected projects

Dagnam.AI · Visual design and training tools for neural networks.

Temporal Topic Analysis Demo · Word2Vec and clustering for tracking changes in topics over time.

Tensortorch · A small neural network framework built with Python and NumPy.
